Dear Mr. Newman,

In a token expression of my appreciation for your valuable research assistance, I enclose a copy of the Visual Language issue containing 2 articles I wrote ~~and~~ that include examples you so generously provided from the Newman collection.

Because I do intend to continue work in this area concerning the design of early American & Colonial paper currency, I heartily welcome any form of inquiry, criticism, corrections, or suggestions on these texts.

Thank you once again for your invaluable assistance in this endeavor.

Sincerely,

Jaume Garrneth
head of the design department
Jan Van Eyck Akademie
